## Anti-fog solution with foam pad

Adhesive-backed, radiopaque sponge delivers solution where it's needed.

- Packaged in a convenient, single-procedure size
- Not made with natural rubber latex

Our anti-fog solution can be applied to endoscopic and surgical camera lenses to inhibit condensation and clouding. The solution is provided in an easy-to-squeeze, 6-gram bottle with an adhesive backing that can be securely affixed to a sponge stick, drape or anywhere convenient within the sterile field. For single patient/procedure use only.
