

# PINNACLE® TPN Management System

## Control Panel and Compounder Features

## PINNACLE® TPN Management System

### Specifications

PINNACLE Catalog Number	PC1000
<i>Dimensions (W x H x D)</i>	
Control Panel	14.76 in. x 11.77 in. x 1.93 in.
Pump Module	28 in. x 19.4 in. x 11.8 in.
<i>Weight</i>	
Control Panel	10.78 lbs.
Pump Module	30 lbs.
Delivery Range	5 mL–5000 mL

### Transfer Sets

REF No.	Description	Units per Case
2112342	9-Lead Vented Set	10
2112341	6-Lead Vented Set	10
2112344	9-Lead Non-Vented Set	10
2112343	6-Lead Non-Vented Set	10

### EVA\* 3-in-1 Mixing Containers – TPN Bags

REF No.	Size (mL)	Units per Case
2112346	250	25
2112347	500	25
2112348	1000	40
2112349	2000	40
2112350	3000	40
2112351	4000	20

\*EVA (Ethyl Vinyl Acetate) does not contain PVC or DEHP

### EVA\* Dual Chamber Mixing Containers

REF No.	Size (mL)	Units per Case
2112406	1500 mL	28
2112407	3000 mL	28
2112408	4000 mL	28

### Accessories

REF No.	Description	Units per Case
418121	Vented Micro Spike Adapter	50
2112397	Tamper-Resistant Clamps for TPN Bags 1 Liter or larger	500
2112432	Tamper-Resistant Clamps for TPN Bags smaller than 1 Liter	500
2112415	Dual Chamber Bag Filling Set	25
2112431	High Flow Y Adaptor Set	20
435251	TPN Bag Stand Holder	1
126909	LCD Wall Mount	1
401539	LCD Swing Arm Mount	1

Multi-media training and real-time help tips make the PINNACLE TPN Management System easy to learn and easy to operate

# PINNACLE® TPN Management System

The PINNACLE TPN Management system streamlines all functional areas of operation and manages all aspects of the TPN process for improved efficiency and safety.

**All operations are recorded by user; identification of user by password or barcoded ID badge is required**

**Pharmacist approval option for all neonatal, pediatric and/or adult orders**

**Recall feature for batch compounding**

**Barcode confirmation for each solution; also records lot number and date**

**Real-time Multimedia help menu**

- Minimizes downtime
- Provides training and user assessment
- Helps identify compounding errors and offers corrective action to resolve them

- Saves Time**
- Tracks NDC number, lot number and Expiration Date for each solution
  - Eliminates need to input specific gravity, viscosity, and spike type
  - Pooled solution calculation capability
  - Networks multiple compounders

- Easy to Operate**
- Windows®-based program with drop-down menus and solution categories
  - No specific gravity or viscosity input required
  - Easy-to-follow tutorial
  - Simple graphic interface
  - Compounds TPN, Cardioplegia and Dialysis solutions
  - Customized queues for neonatal, pediatric, adult and STAT orders

- Enhances Safety**
- Fast barcoded patient prescription option avoids manual entry errors
  - Proven gravitational technology measures individual ingredients and final volume
  - User identification required by barcoded ID badge or password

**Numbered, color-coordinated and barcoded sets match monitor display**

**Proprietary organizer bar prevents user from misloading sets**

**Calibrate load cell once a day**

**Dual Chamber and 3-in-1 EVA Mixing Containers**

- Efficient**
- Fills one liter in less than a minute
  - Preassembled sets for easy set-up in less than 15 minutes
  - No need to prime lines
  - Source containers will run until empty
  - Six lead and nine lead vented and non-vented sets available
- Components do not contain DEHP or natural rubber latex.

**TPN Stand holder**

**Add additives needle-free via syringe to the mating line of the Pinnacle bags**
