Cardinal Health™ Monoject™ SharpStar™ In-room Containers

Disposal designed to protect

Your goal is for every sharp to pass through your facility safely without injury or exposure

Count on Monoject™ SharpStar™ In-room Containers from Cardinal Health to protect through the final steps of disposal with superior safety and value.

Plus, Monoject™ SharpStar™ Renewable Containers are an environmentally responsible option made from post-industrial recycled resin.

Engineering features include:

- 1 Horizontal drop maximizes container space
- 2 Bold red Full indicator alerts user to replace container
- 3 Restricts hand accessibility. Directs sharps away from user
- 4 Safety mechanism prevents over-filling
- 5 Prevents sharps from exiting the lid
- 6 Permanently locks to keep hands away from contents

That's how SharpStar™ Containers are designed to be safe for clinicians, patients and the environment.

Choose Monoject™ SharpStar™ In-room Containers

Engineered to meet OSHA standards for ease of use and needlestick prevention, the Monoject™ Sharps Container with SharpStar™ Lid can help you comply with the Needlestick Safety and Prevention Act.¹

Cardinal Health™ Monoject™ SharpStar™ In-room Containers
