

Serve patients and reduce costs in your cath lab

with cath lab kits from Cardinal Health

Cardinal Health is proud to team up with Angiodynamics, fluid management experts, to offer cardiac cath lab kits that help your facility operate more efficiently. Our cath lab kits offer convenience and cost savings, so you can focus on the procedure:

- Your choice of PVP scrub or Chloraprep® skin prep
- Waterproof labels with large black lettering can be viewed in dark procedure rooms and meet Joint Commission requirements
- Surgical gowns are AAMI level 3 in critical zones to protect staff
- Safety scalpel and needle holders
- The 180 cm. extended cath lab drapes in our kit provide clear panels, so you can observe controls, as well as large pouches for wire/cord management and to hold instruments/supplies.

Cardinal Health is offering Angiodynamics fluid management kits inside Presource® cath lab custom, sterile packs. You'll have access to all the Angiodynamics customized kits, including manifolds, syringes, and closed fluid systems, without having to order, track or pay for them separately.
