

MetriCide™ OPA Plus

MetriCide OPA Plus is the ideal choice for healthcare professionals who are concerned about the cost and effectiveness of high-level disinfectants used in reprocessing endoscopes and other heat sensitive semi-critical medical devices.

**33% FASTER
THAN OTHER
OPA BRANDS**

Features & Benefits:

- Manual reprocessing: can be reused for up to 30 days in 12 minutes at 20°C – **No other OPA lasts longer manually**
- Automated reprocessing (AER): can be reused for up to 14 days in 5 minutes at 25°C
- Surfactant free formula – won't cloud scope lenses
